

Flat screen...  
Big sound

**BaseStation™ One**

The Tannoy BaseStation One brings a deep, rich and unbelievably powerful sound to your TV. Delivering more punch than a traditional soundbar, this single box, surround sound system is designed to sit under a TV or inside/on top of your AV furniture. Packing in Tannoy's renowned loudspeaker and subwoofer technology, DSP surround sound and over five times the amplifier power of most flat-panel TVs, the BaseStation One delivers room filling sound.

With a range of inputs including optical digital, analogue and Bluetooth® with apt-X® sound enhancing technology, the BaseStation One is ideal for home cinema, sports events, music and speech. Simple to connect, simple to use and hassle-free, the BaseStation One is as neat and convenient as a soundbar yet delivers the complete Tannoy audio experience.
